

OUR SERVICES

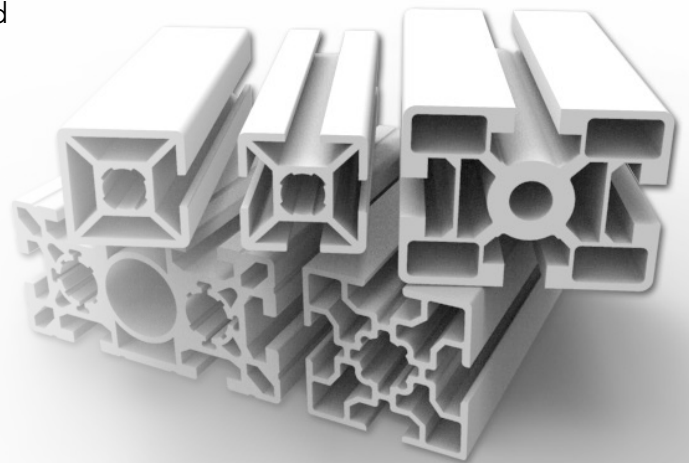

EXTRUSION-AS-A-SERVICE

We have over 500 dies in stock that cover standard and custom profiles run on our premises and we can also offer final cutting, machining and packaging. Alloy 6063 is our speciality, and we offer mill finished, anodised or powder coated profiles through our partnership network.

Minimum Order Quantity: 500kg

CUSTOM DIES

We source our extrusion dies from vetted suppliers and our drawing office can assist you with your extrusion profile design needs.

ABOUT ALUECOR

The Aluecor extrusion press has been serving the South African market effectively for decades and was acquired by the current owners in 2020. Leveraging deep industry expertise whilst developing our diverse and capable team, Aluecor manufactures and supplies high-quality custom and standard aluminium extrusion solutions for the architecture, construction, engineering, energy and automotive sectors. We have a 5-inch press capable of producing profiles that fit within a circumscribing circle diameter (CCD) of 97.5 mm

Providing **world-class** service delivery and product quality

Develop **end-to-end** solutions from research to delivery

Ensure **professional** partnerships and access to expert advice
